

*Mediterranean Wellness
from Sardes Food...*

Welcome!

Welcome to our company, SARDES GIDA SANAYİ aiming at bringing together the agricultural richness grown in fertile soil of Turkey's Aegean Region, world-wide food importers, wholesalers, distributors and end consumers.

From its small starting steps in 2004 to these days, our company has succeeded in being one of the industry leaders offering a complete service and wide product range to all its customers in the production and export of canned food.

We hope you have fun and reach all information you need while reviewing our catalogue.

Please contact with us for any additional information, your comments and requests

Employed staff	300-350 people in summer season 130-140 people in winter season

Why Sardes?

Because;

- For us, it's not only a business, but also a life style.
- It's the greatest sun-dried producer in Turkey and specialized so much that acting modestly regarding this issue will not be proper.
- It is an enterprise founded by a certified agricultural engineer who has significant expertise in agricultural production.
- It is on a strategic location in which İzmir, a harbor city, and all needed inputs can be reached comfortably.
- It has an important growth potential and maneuverability. It has the opportunity of growing easily and diversifying according to customers' demands and needs.
- The mentioned potential has also been used in organic productions, and these productions started in 2005 have achieved 100% growth to date.
- Tight control and traceability are applied in all operations and processes.
- Our operations are built on robust quality and food safety management systems, certified to BRCGS and IFS standards.
- Our facility is also registered with the U.S. Food and Drug Administration (FDA), enabling compliance with U.S. regulatory requirements for food exports.
- In addition, Good Manufacturing Practices (GMP) are strictly implemented across all production stages.
- HACCP principles are fully implemented, with all Critical Control Points (CCPs) continuously monitored and controlled, ensuring a high level of food safety and traceability. Sardes controls all production stages carefully in its own laboratory. Control of raw materials, subsidiary materials, inputs in the packaging materials and physical, chemical and microbiological analyses of water, process materials and end materials are performed.
- It is experienced, active and effective with regard to different markets, needs and tastes in the world
- It is the contract manufacturer of many international brands.
- In addition to being able to produce in various package sizes for both retail and wholesale, it can prepare bulk products for producers
- It is a reliable partner for both its customers and suppliers.

Our Vision

Being a food producer, which leads the industry,
inspires its employees,
prioritizes food safety
is preferred,
regards being reliable as a basic principle!

Our Mission

Research & development activities were energized by tracking the developing technology and making improvements.

Healthy and safe food production which
is supported by training

adopts the philosophy of sustainable life as a principle with eco-friendly methods and is rewarded with customer satisfaction by meeting the needs and expectations.
